Remote — Iran (GMT+3:30) | Open to full-time remote / contract roles

SUMMARY

Senior Software Engineer with 5+ years of experience building web platforms, enterprise systems, and digital products across e-commerce, fintech, and large-scale governmental and enterprise environments. Core expertise in Front-End development with React, Next.js, Vue.js, Nuxt.js, and TypeScript, with responsibilities that regularly extend beyond front-end code into technical leadership, software architecture, and Docker/CI-CD infrastructure. Focused on building software that is scalable, maintainable, and shipped reliably for real users.

EXPERIENCE

Senior Software Engineer — Maskan Research & Technology Fund (RTF) (Part-time · Remote) Nov 2025 – Present

- Leading development of the service portal, corporate website, and CMS alongside a cross-functional team of front-end and back-end developers.
- Designed and implemented the Docker infrastructure and CI/CD pipelines, owning deployment through to production.
- Stack: Vue.js 3, Nuxt 3, TypeScript, Docker, GitLab CI/CD

Senior Front-End Engineer — Sadad Etemad Pardazesh Co. (Full-time · Iran) Feb 2024 – Present

- Develop and maintain the company's flagship e-invoice submission system, integrated with Iran's national tax platform and serving ~1,000 daily active users.
- Led the redesign of the system architecture, migrating the codebase from Vue/Nuxt to a Turborepo-based Next.js monorepo.
- Independently designed and built the corporate website and CMS.
- Stack: Vue 3, Nuxt 3, React, Next.js, TypeScript, Turborepo, Redux Toolkit, Tailwind CSS, Material UI

Senior Software Engineer — Rejuderm & Rejuline Global — Italy (Remote) Nov 2022 – Present

- Lead the Front-End team in building and maintaining a proprietary CRM alongside the company's international websites.
- Delivered 5+ e-commerce and corporate websites for the Iranian, Turkish, and international markets.
- Own ongoing maintenance, development, and improvement of all company systems and websites.
- Stack: Vue.js, Nuxt.js, JavaScript, TypeScript, WordPress, WooCommerce

Front-End Developer — AmerDental Inc — United States (Remote) Sep 2022 – Mar 2023

- Built an online store for dental products and equipment with 500+ product listings, as part of a four-person engineering team.
- Implemented the UI, authentication flow, application state management, and REST API integration.
- Stack: React, JavaScript, Redux, REST API

Front-End & WordPress Developer — Freelance (Remote) Aug 2020 – Jan 2023

- Designed and developed 50+ web projects — landing pages, corporate sites, and online stores — for a variety of clients, end-to-end from requirements gathering through deployment and support.
- Stack: JavaScript, jQuery, HTML5, CSS3, SCSS, WordPress, WooCommerce, PHP

OPEN SOURCE PROJECTS

CodeSync — real-time collaborative code editor with live cursors, chat, voice, version history, and instant HTML preview.

github.com/theAHR/CodeSync

GitHub Galaxy — interactive 3D visualization that renders any GitHub profile's repos as an explorable planetary system.

github.com/theAHR/github-galaxy

Chronos — offline-first PWA focus hub combining a Pomodoro timer, ambient sound mixer, tasks, and a GitHub-style streak heatmap. github.com/theAHR/chronos

SKILLS

Frameworks & Libraries: React, Next.js, Vue 3, Nuxt 3/4, jQuery

State Management: Redux, Redux Toolkit, Vuex, Pinia

Styling & UI: Tailwind CSS, SCSS, Material UI, Design Systems, Responsive Web Design, Figma

Architecture & Patterns: Software Architecture, Microservices, Monorepo/Turborepo, Component-Based Architecture, PWA, Technical SEO, Core Web Vitals

Infra & DevOps: Docker, Containerization, GitLab CI/CD, Automated Deployment, Nginx, Linux

Backend & Data: REST API, API Integration, MS SQL Server, PostgreSQL, WebSocket, WebRTC, CMS, WordPress, WooCommerce

Leadership: Technical Leadership, Sprint Planning, Code Review, Git, GitLab
